

Web Development 1

Module Overview

Programming

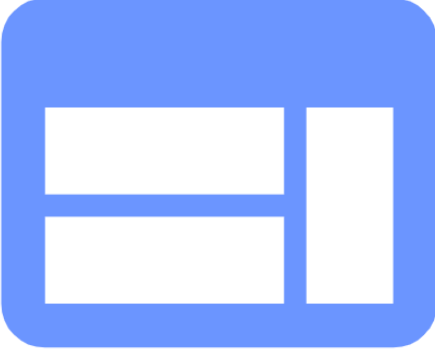

algorithms · data structures · processing · java · classes · libraries

Web Development 1

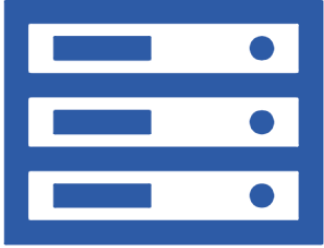

html · css · layout · web apps · web frameworks · deployment

Web Development 2

javascript · node · express · git · github · glitch

Full Stack Development 1

javascript · node · apis · tdd · frameworks · front-end · svelte

Full Stack Development 2

SPA · react · APIs · front-end

Software Security

security · crypto · threats · vulnerabilities

Computer Systems & Networks

logic · computer organisation · os · networks · interfaces · ...

Mobile App Development

layouts · activities · resources · lifecycle · widgits · ux

Databases

entities · tables · rows · sql · er · nosql

Project

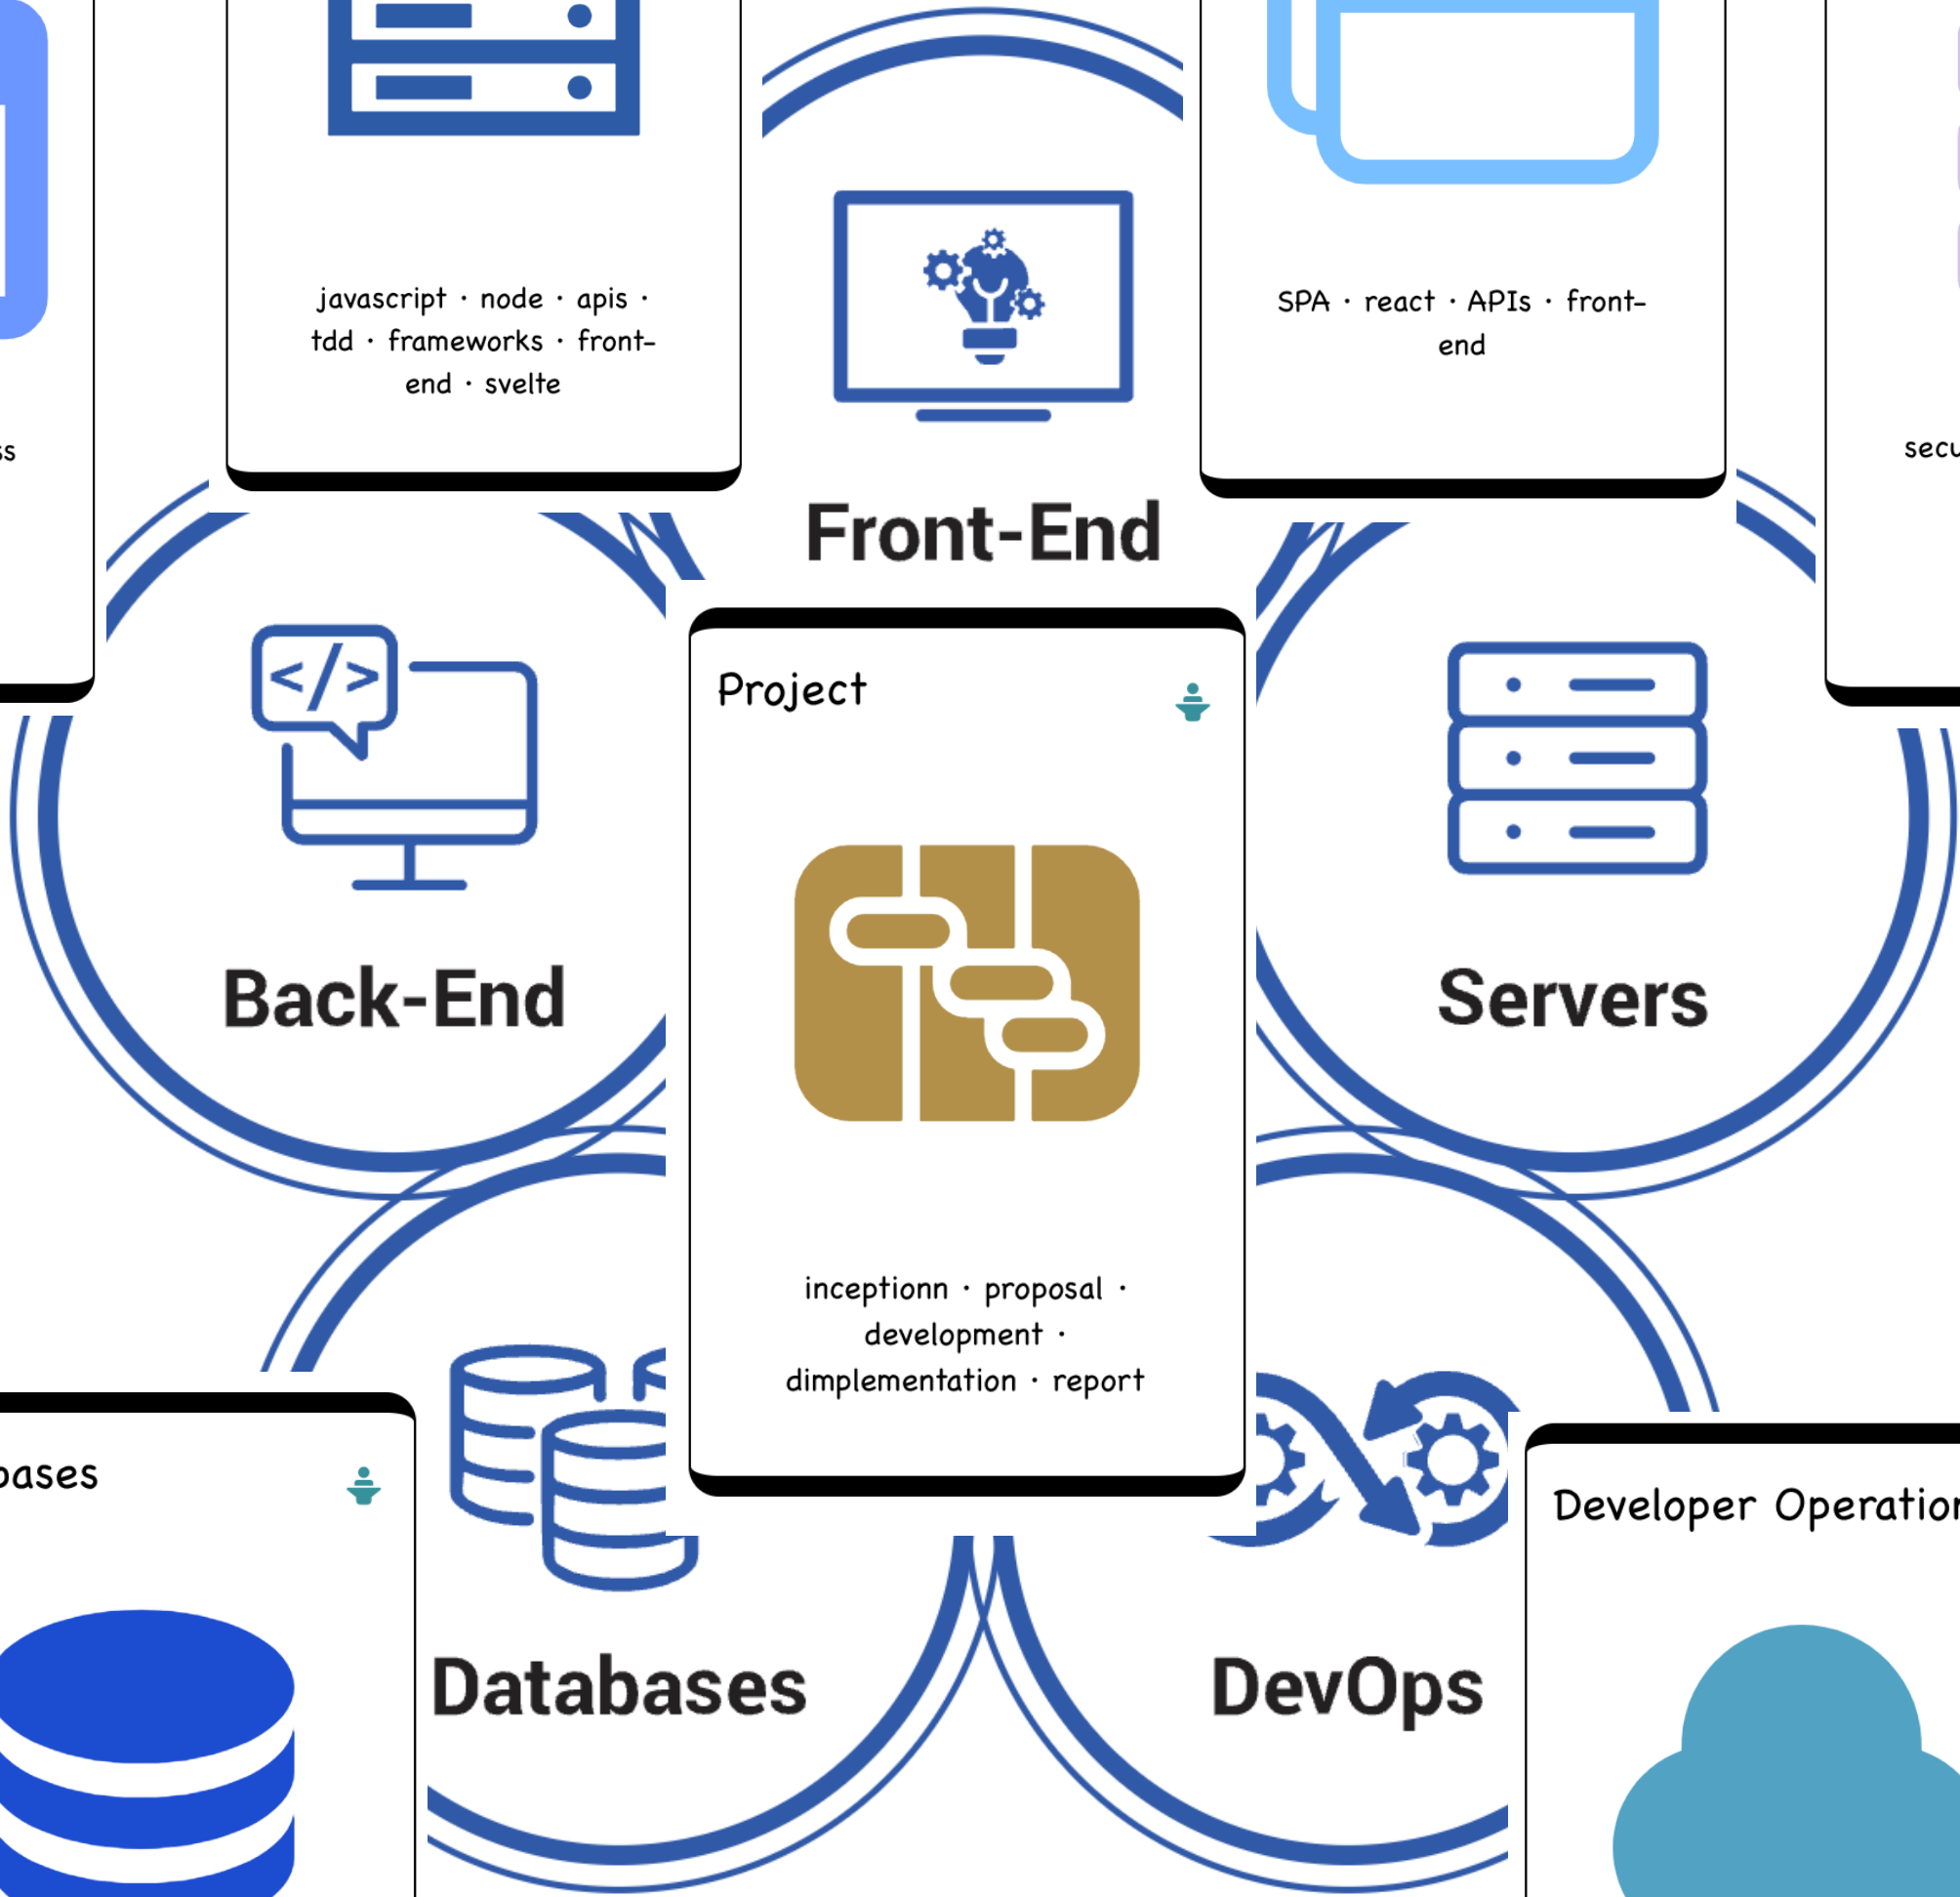

inceptionn · proposal · development · dimplementation · report

Developer Operations

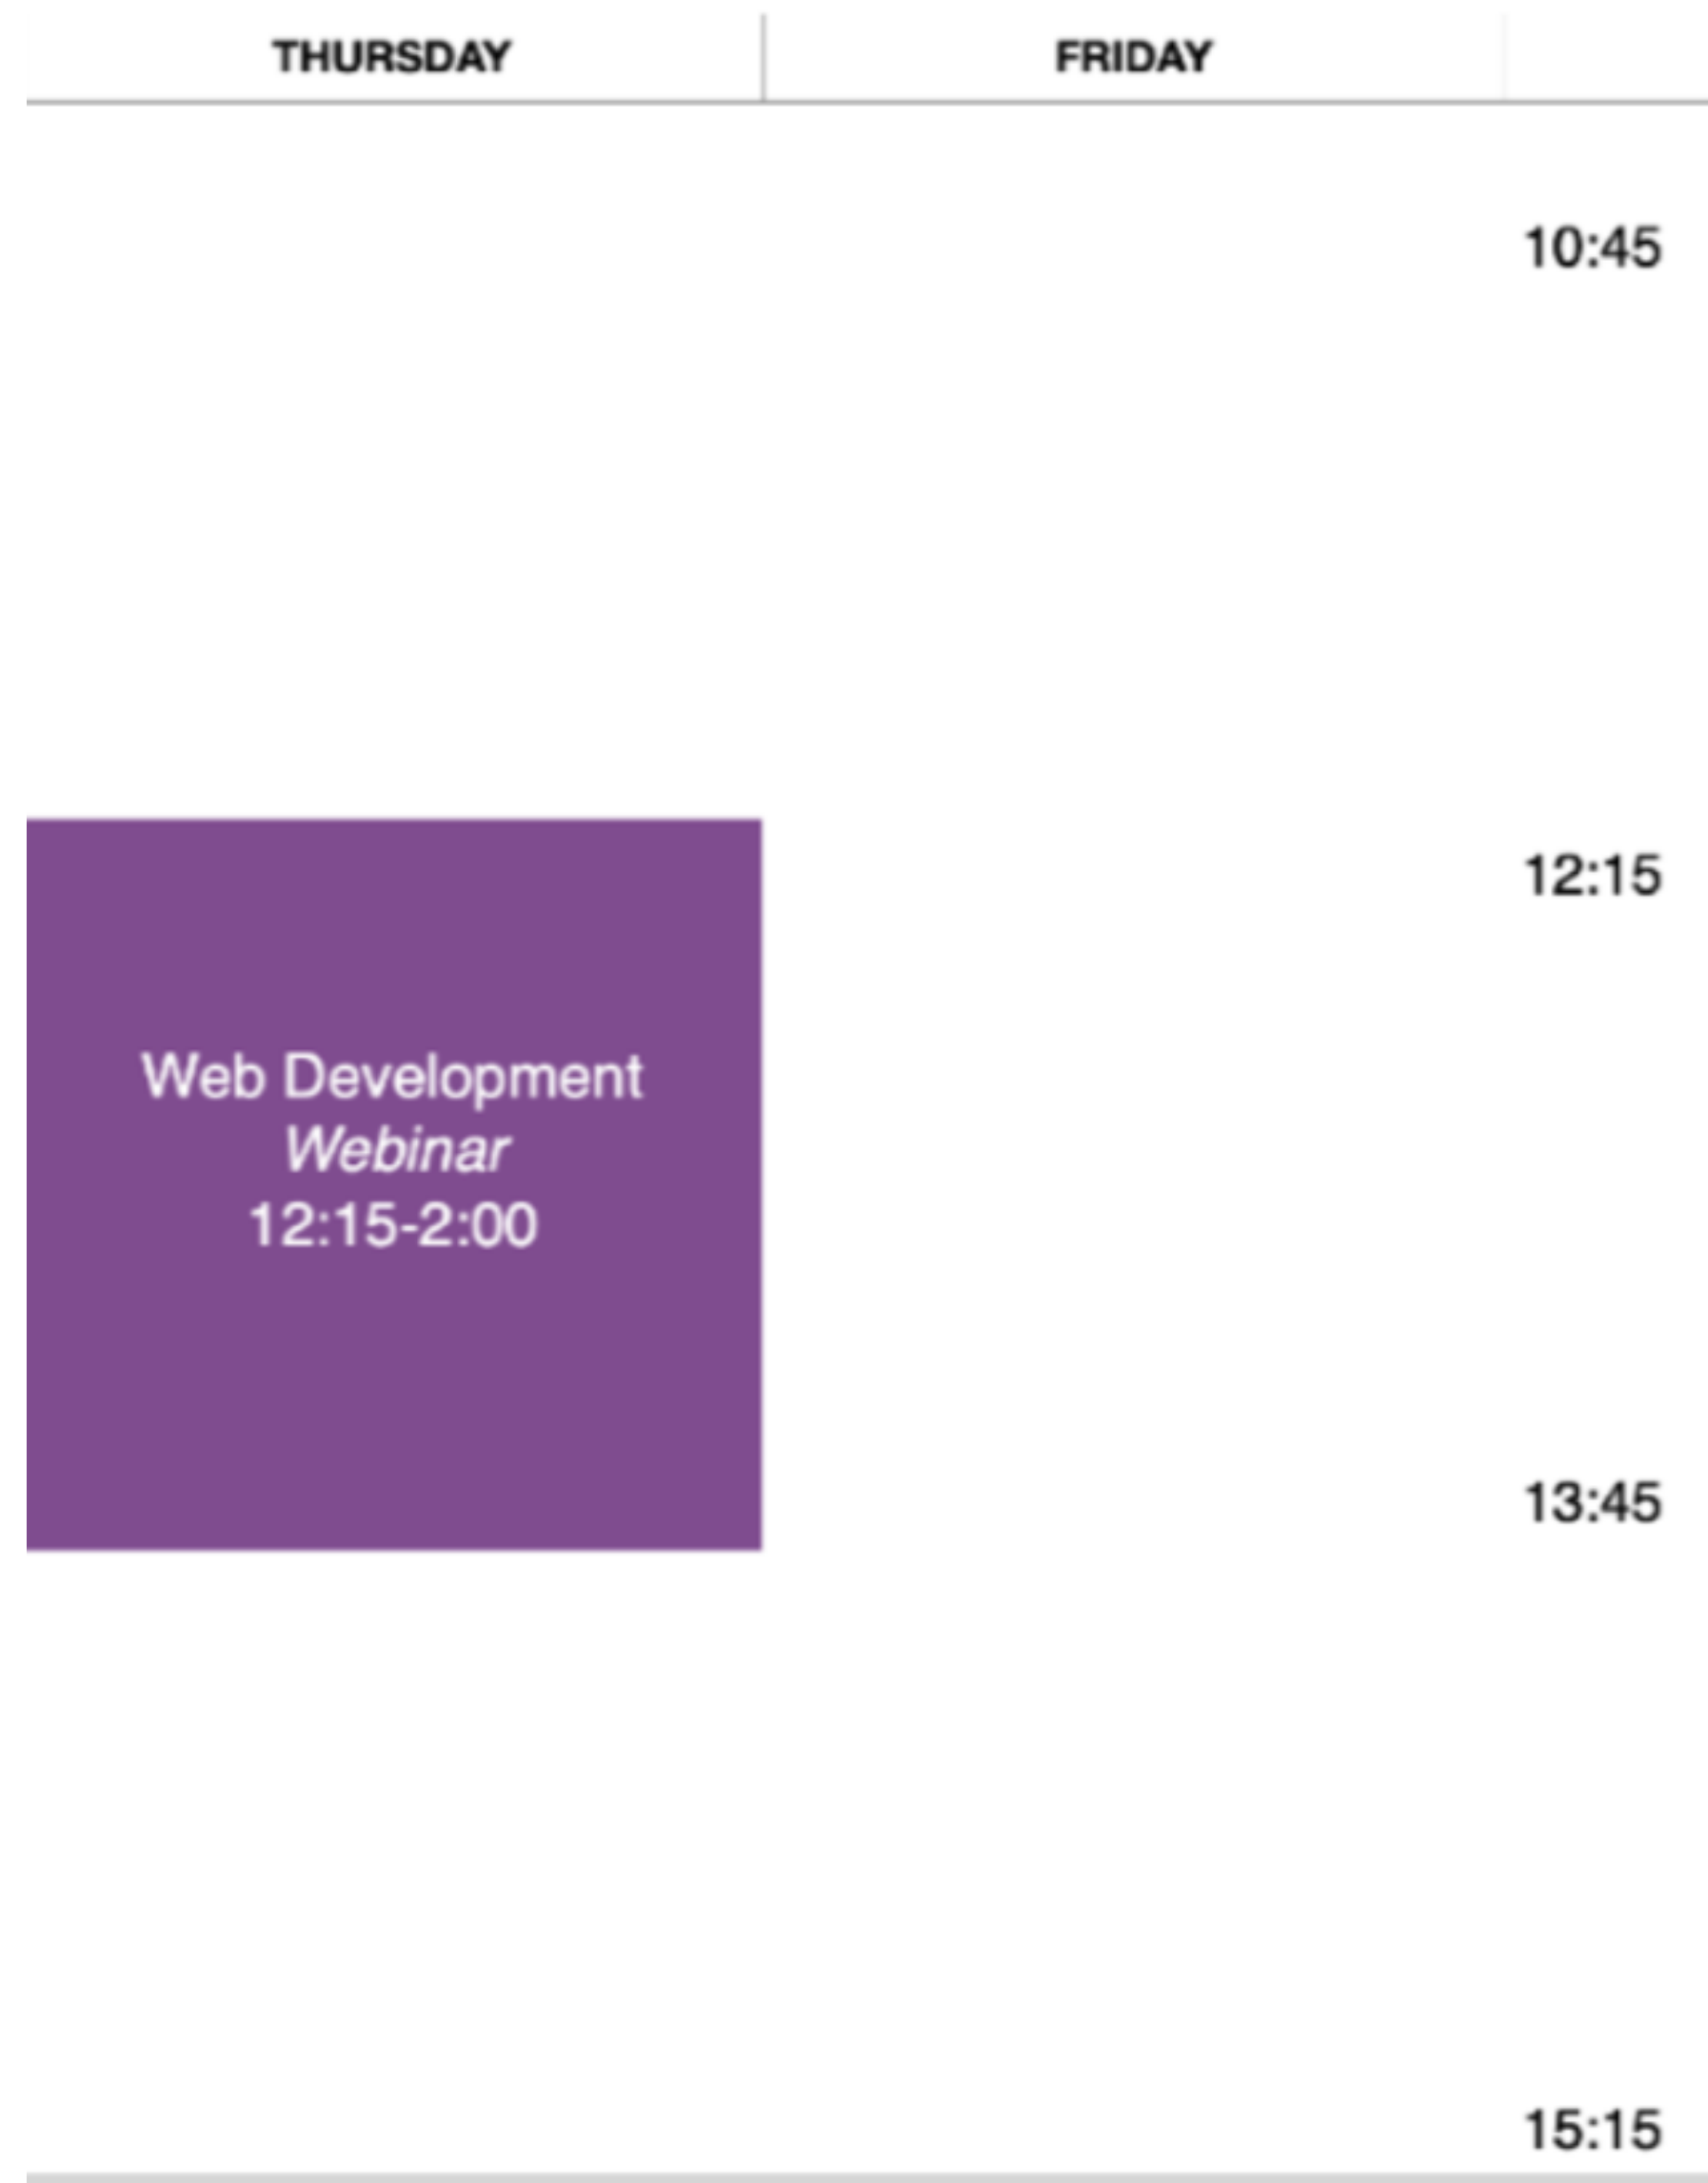

cloud computing · scripting · scaling · automation · monitoring

Webinar

Web Development
Webinar
12:15-2:00

Lab support
throughout
the week

Workshop One

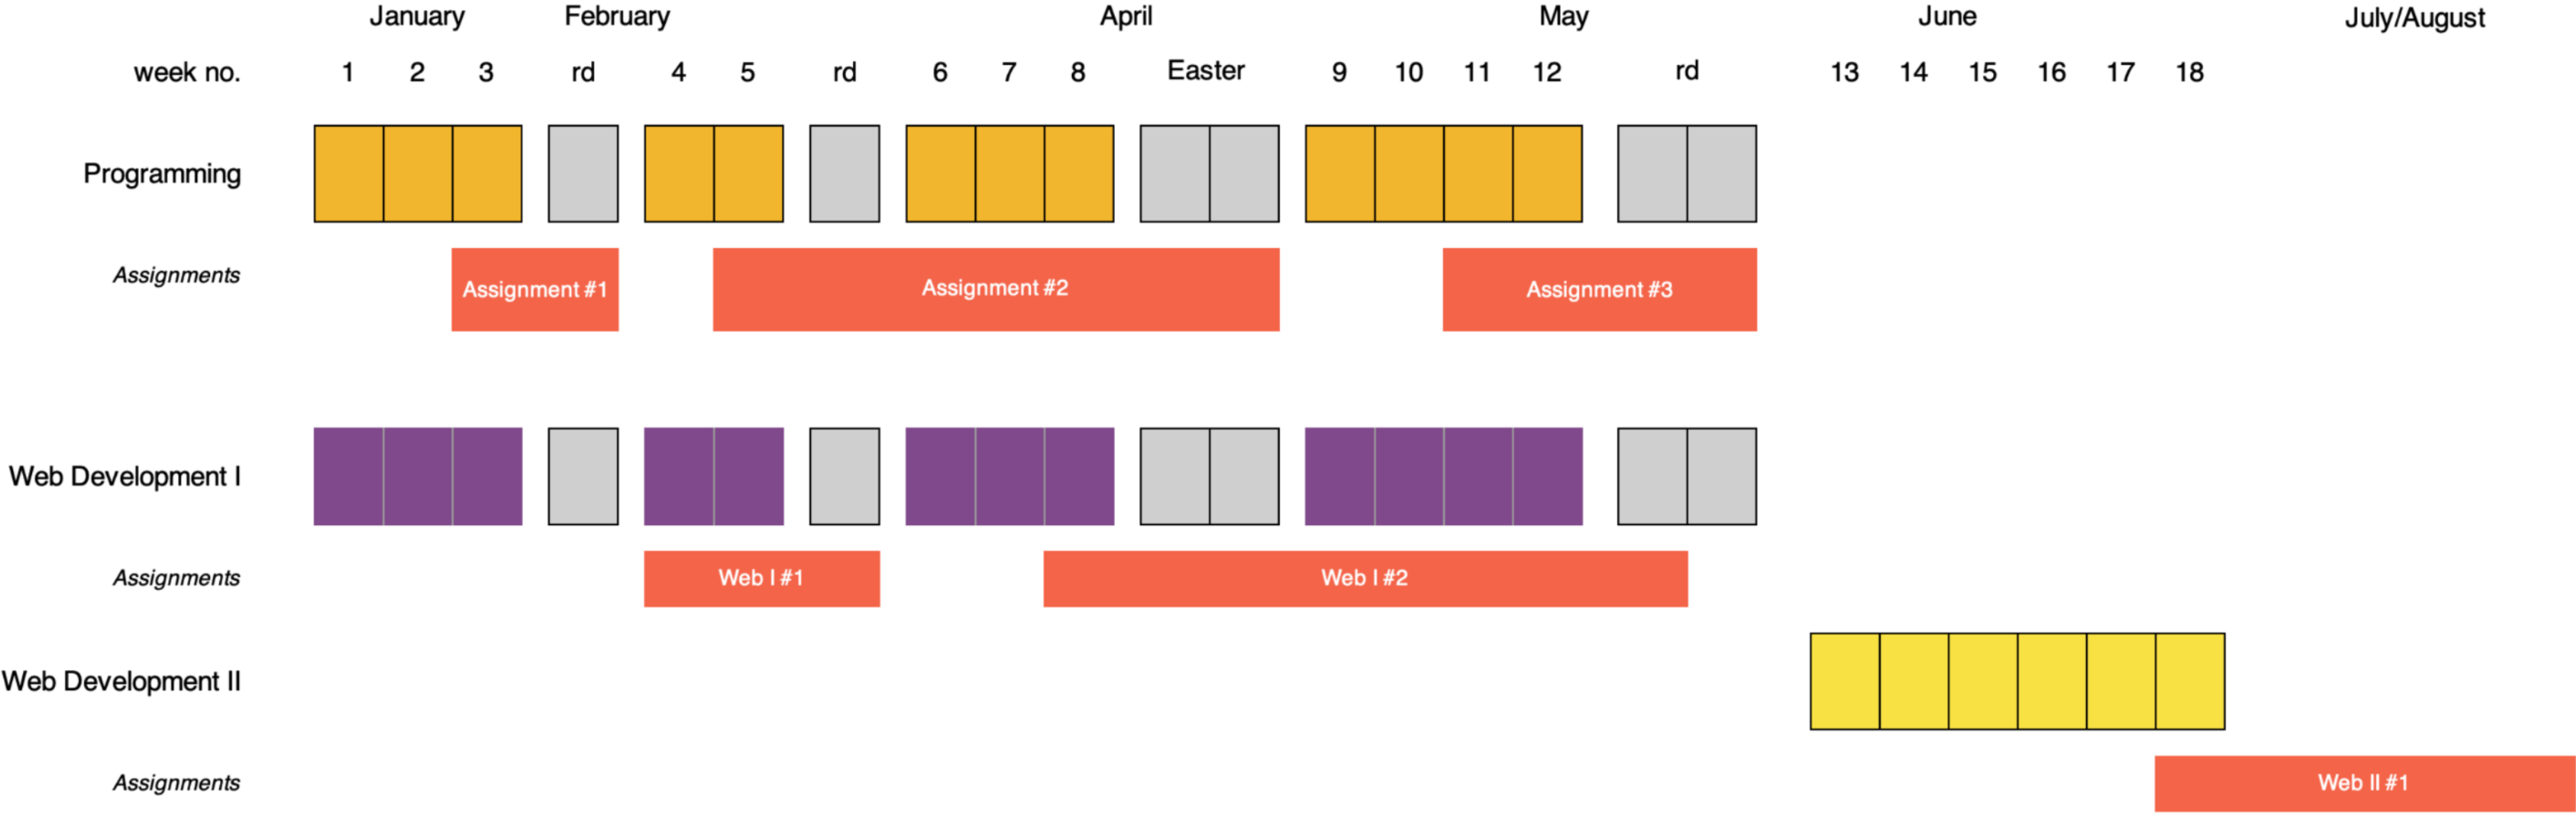

induction · structure · schedules · handbook

Workshop Two

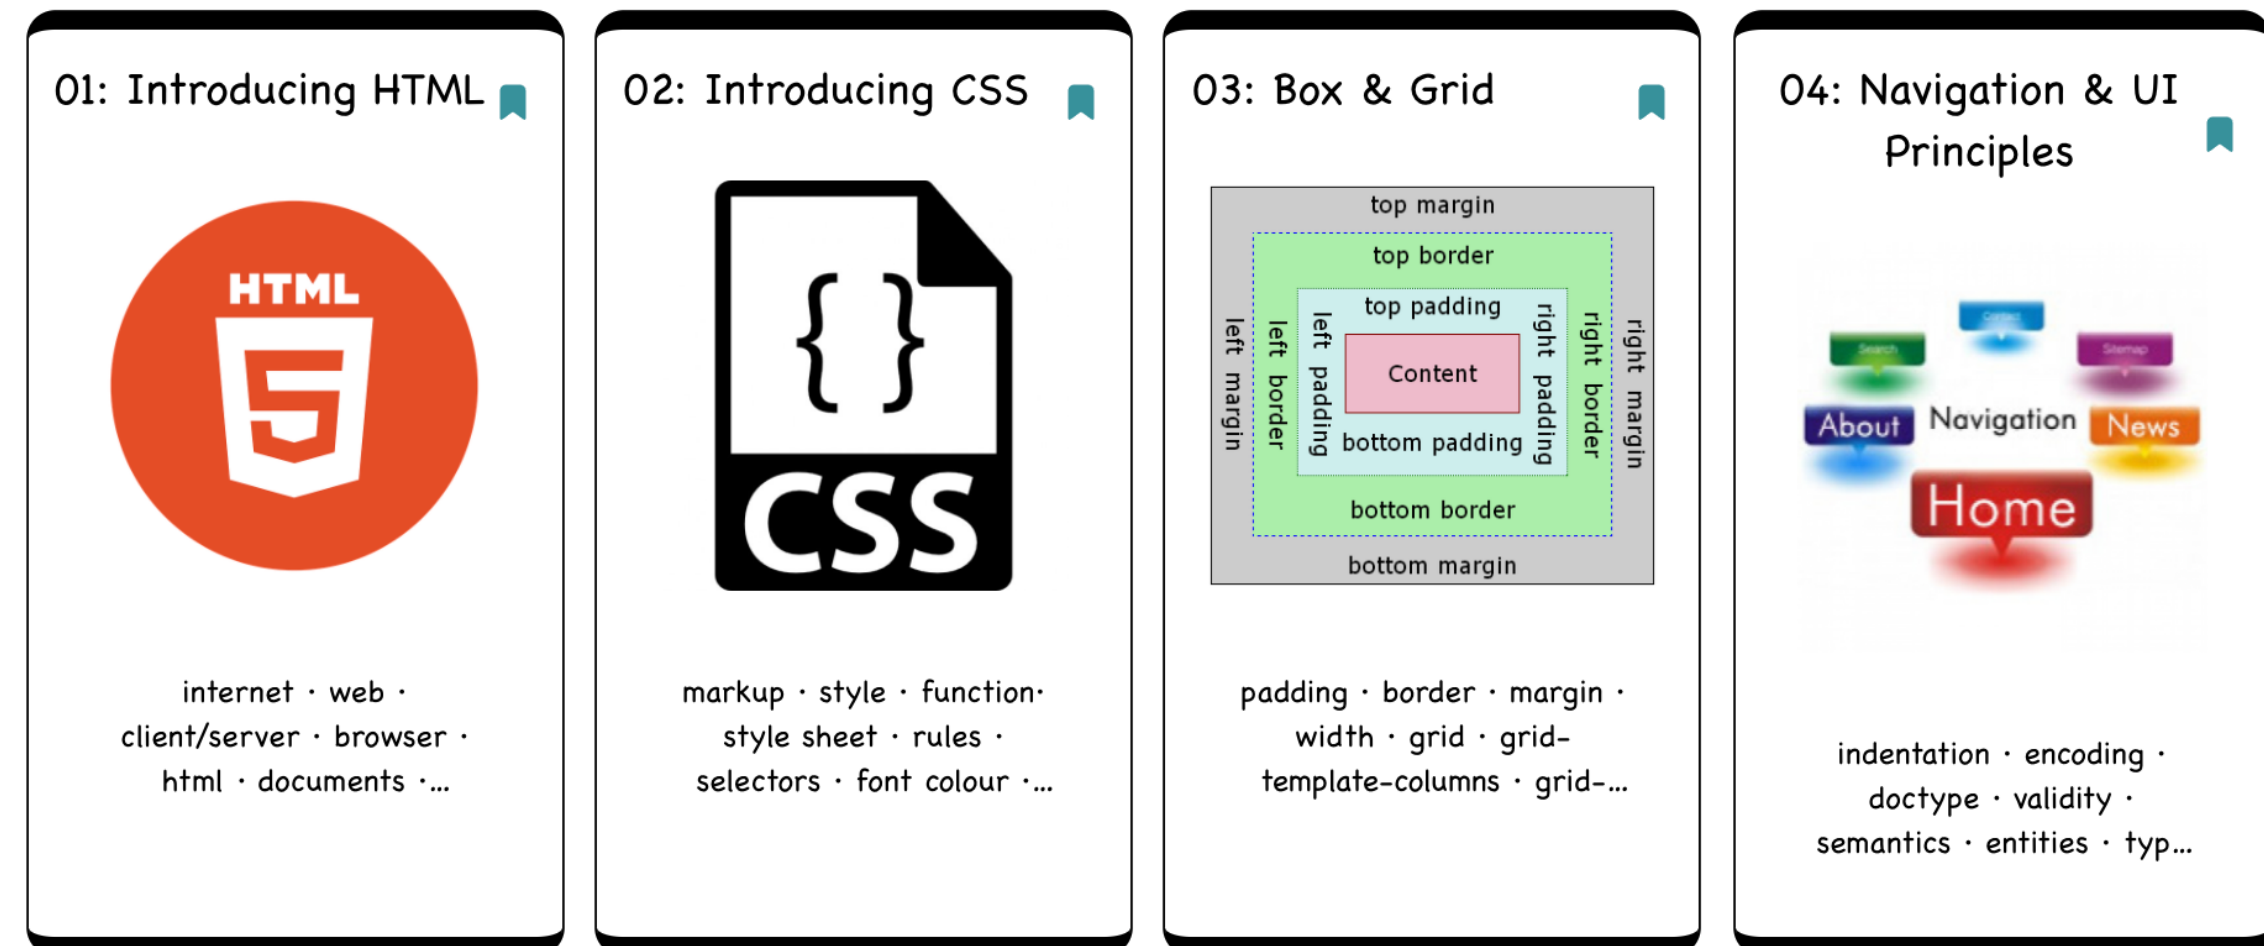

Introducing semester 2

Semester 1 Assessment Schedule

12 Topics – one topic per week

Each Topic builds on concepts, tools and techniques from previous weeks.

01: Introducing HTML

internet · web ·
client/server · browser ·
html · documents ·...

02: Introducing CSS

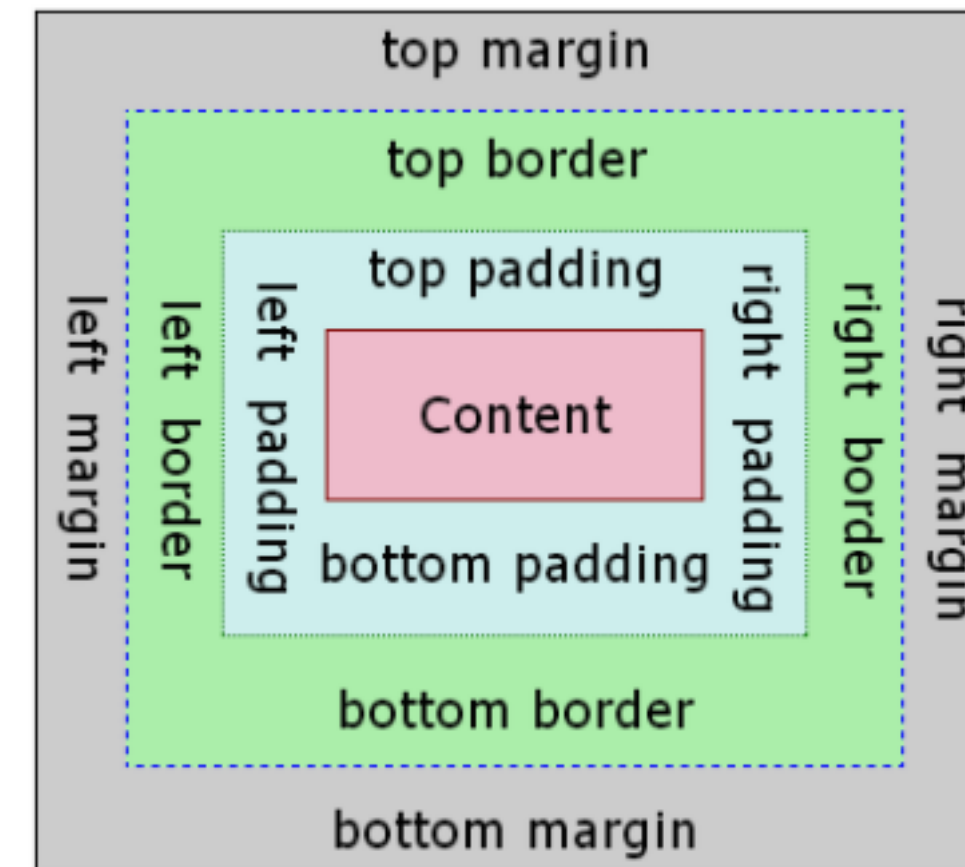

markup · style · function ·
style sheet · rules ·
selectors · font colour ·...

Core HTML + CSS

Laying out pages with CSS Structuring a Navigation Metaphor

03: Box & Grid

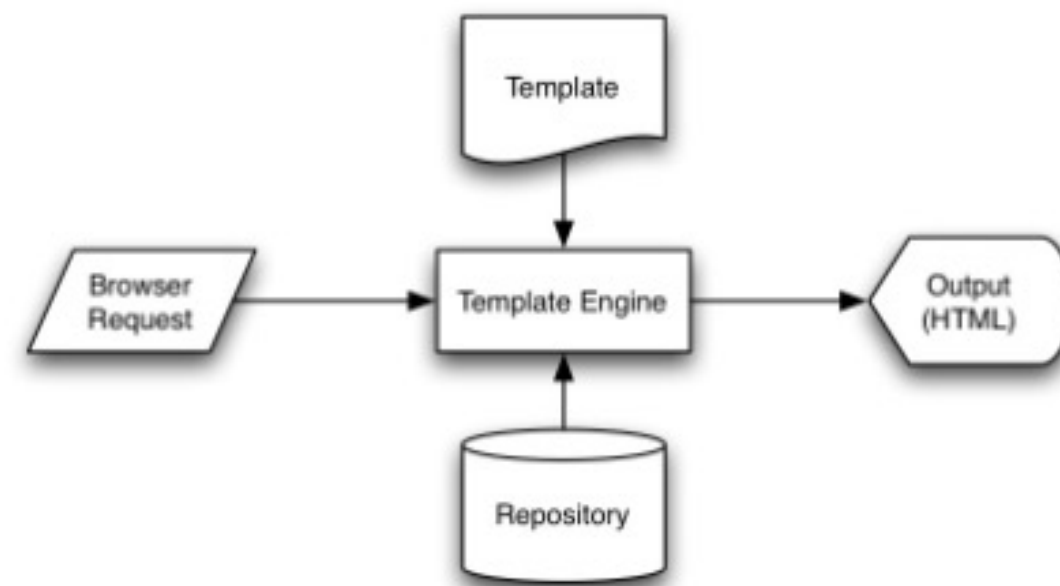

padding · border · margin ·
width · grid · grid-
template-columns · grid-...

04: Navigation & UI Principles

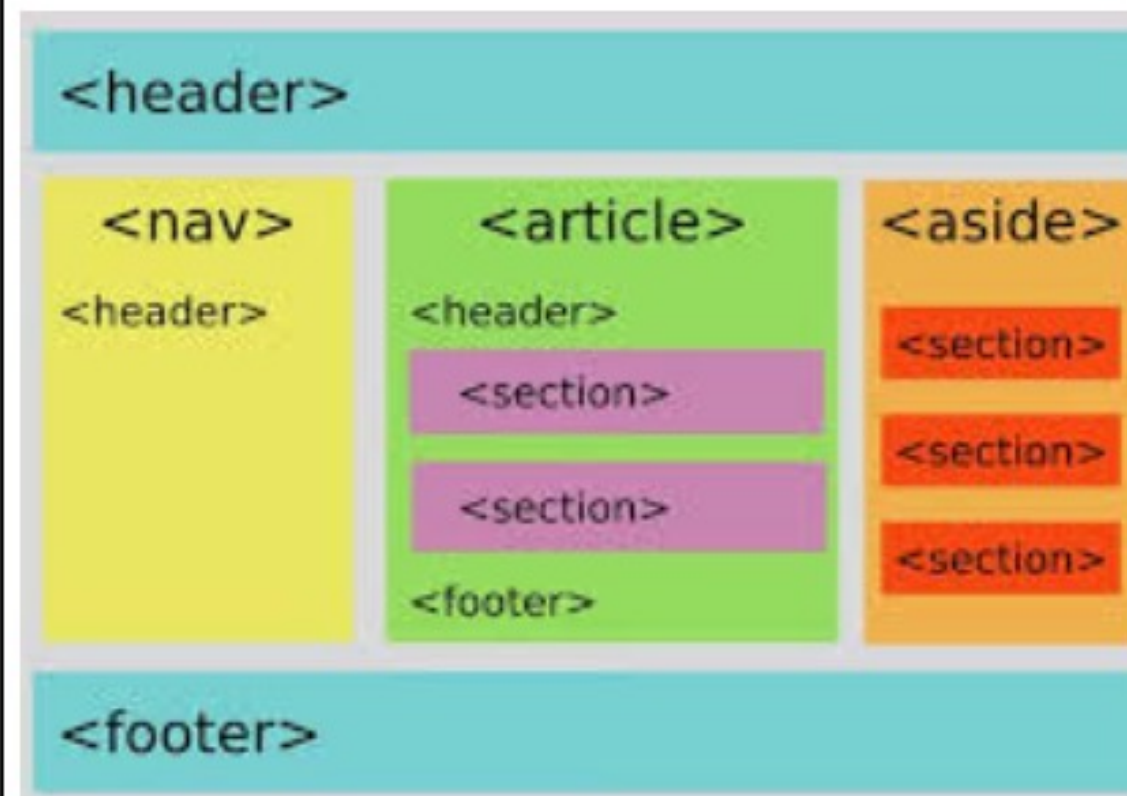

indentation · encoding ·
doctype · validity ·
semantics · entities · typ...

05: Templating & Colour

clients · servers · hosting ·
domains · dns · paths ·
http · command prompt ·...

06: Semantic HTML & Typography

header · main · nav · aside
· article · footer · section ·
figure · typeface · font

Modularising
a web site

Exploring UX -
Colour &
Typography

New this year, a
focus on templating,
JavaScript, modern
deployment/hosting
services

* To be confirmed

· article · footer · section ·
figure · typeface · font

Assignment 1 based on skills acquired in topics 1-6

Allocated 40% of overall module grade

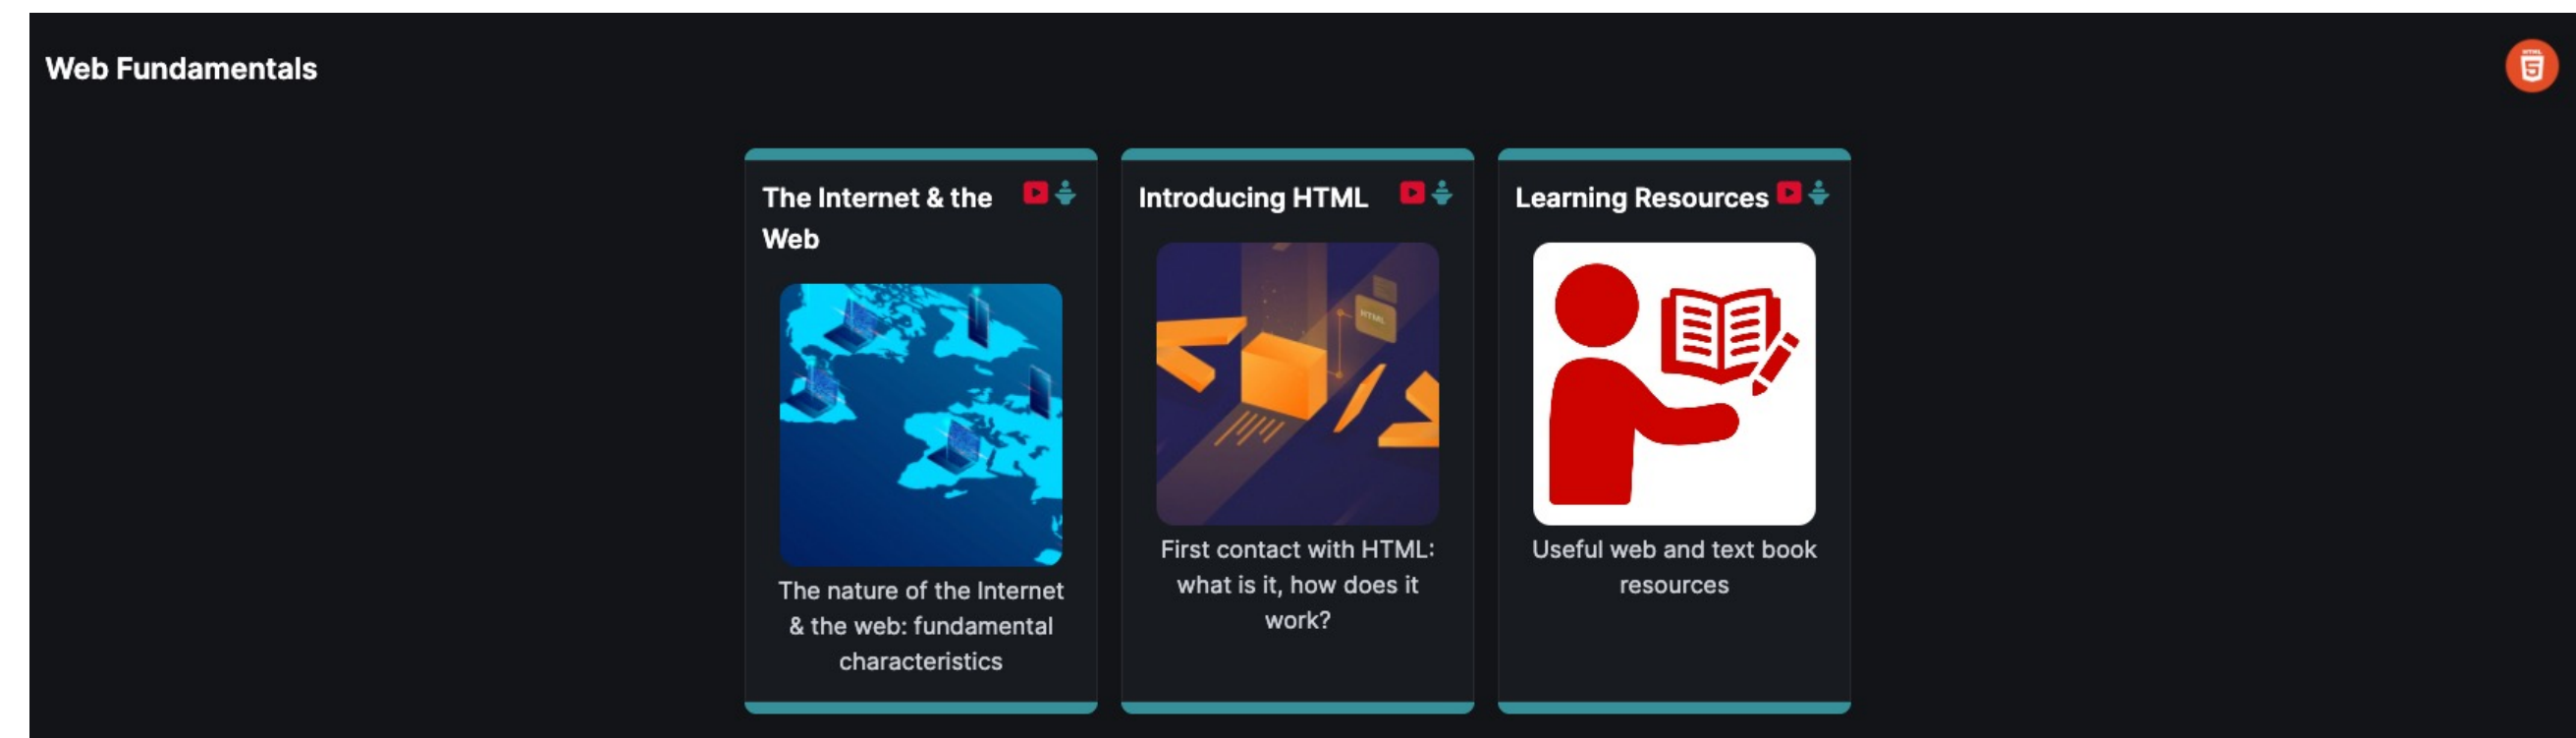

Assignment 2 based on skills acquired in topics 7-12

Allocated 60% of overall module grade

Lectures

- Video and PDF Presentations Provided
- Some lectures will be “live”, others recorded
- All lectures will be recorded
- At the end of the live lectures (or at checkpoints), questions from slack can be answered
- Live lectures will be followed by an open Zoom call (not recorded) to facilitate questions, feedback and humanity

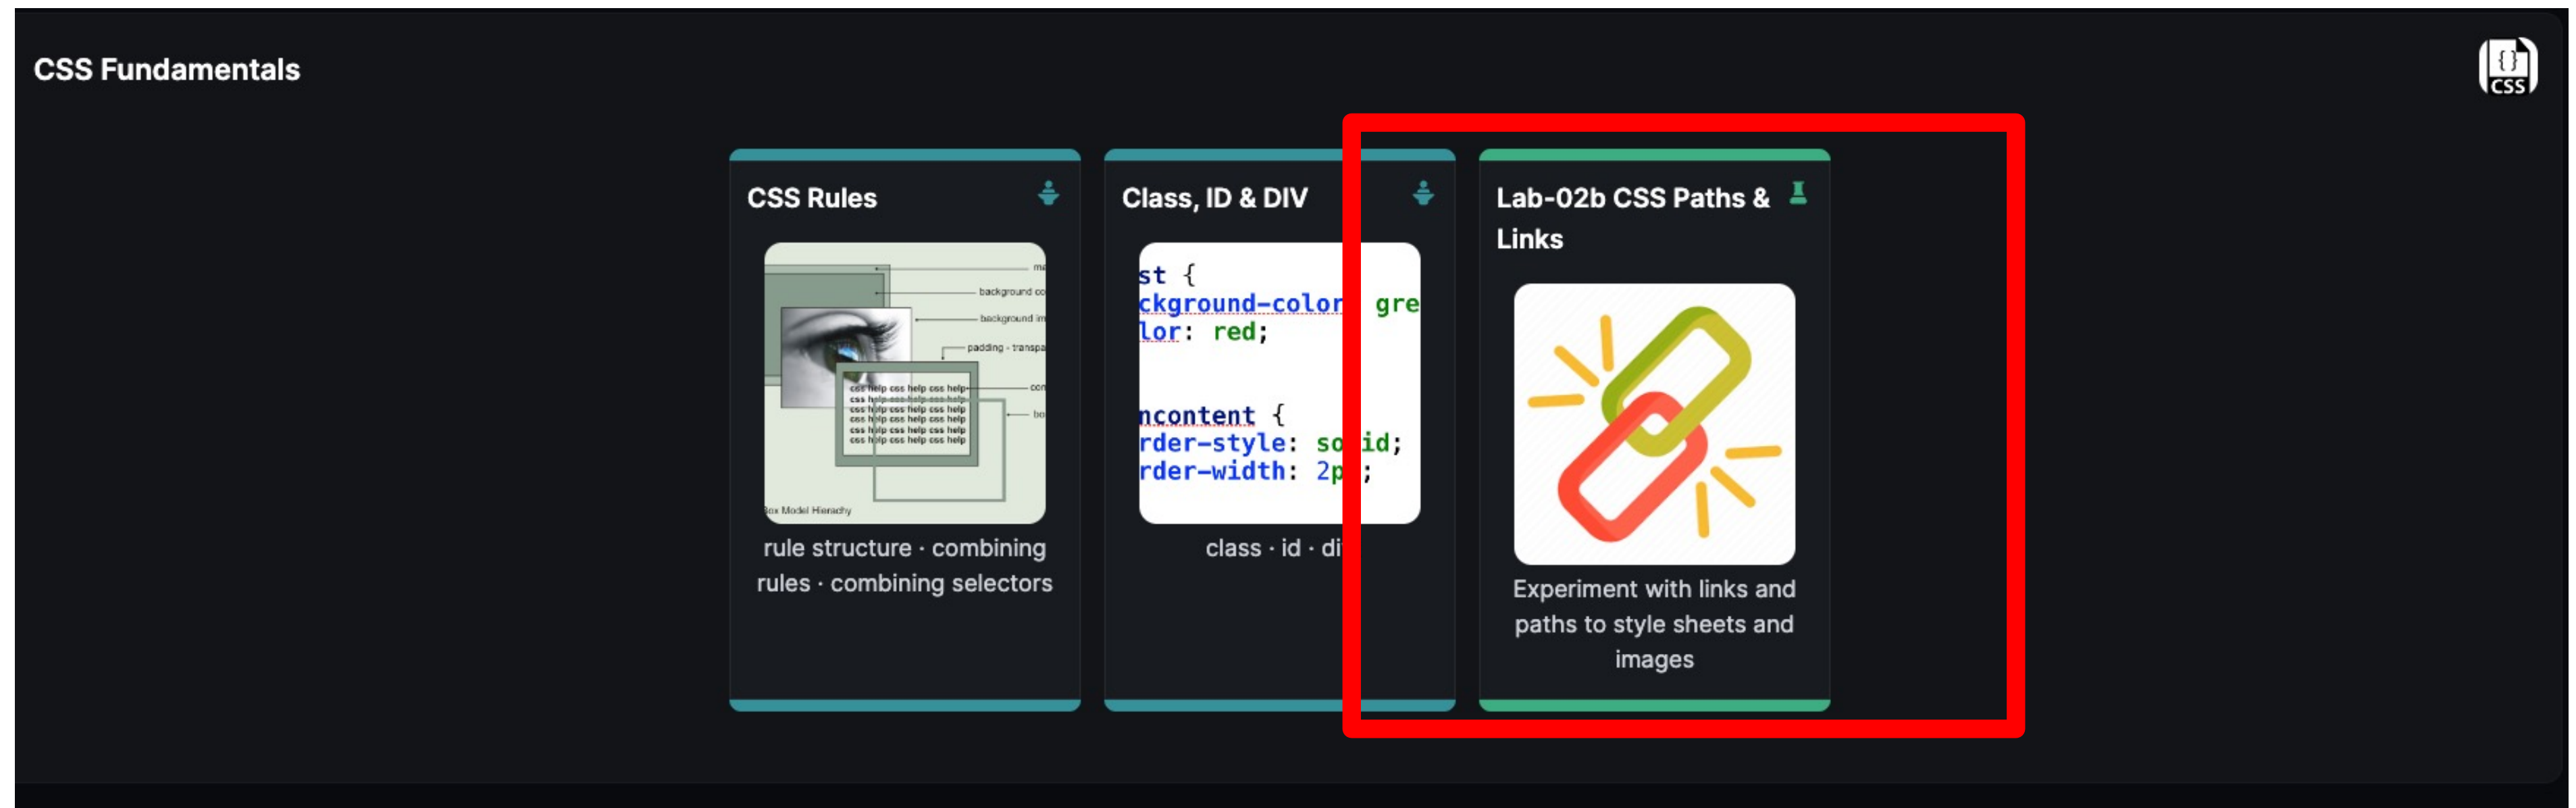

Lectures

Ah, so I don't need to take notes!

No Notes →

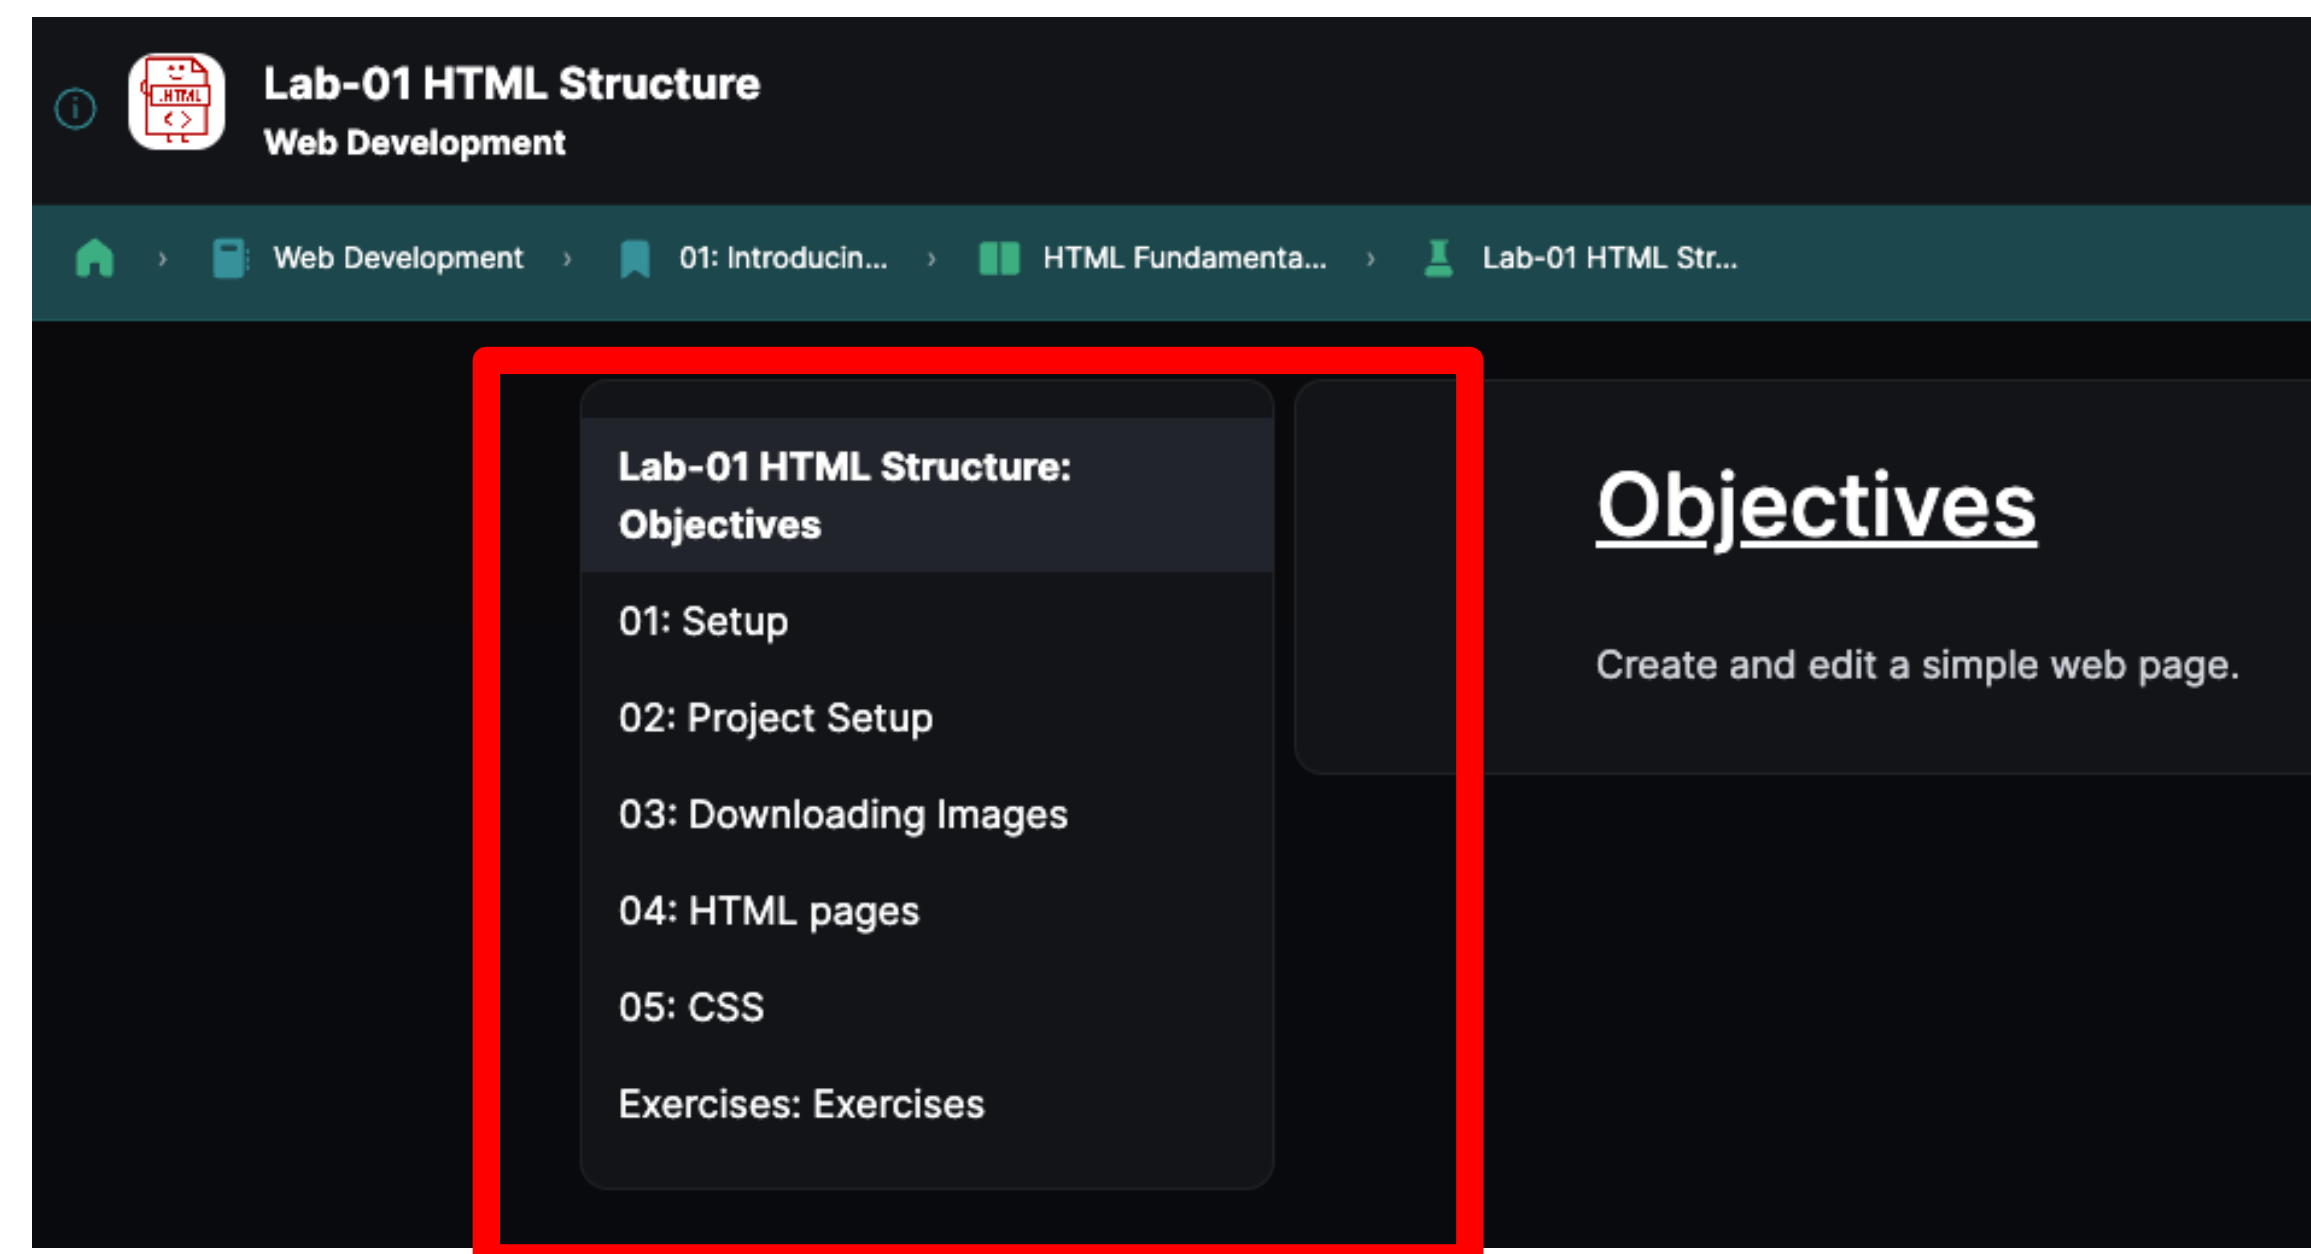

Labs

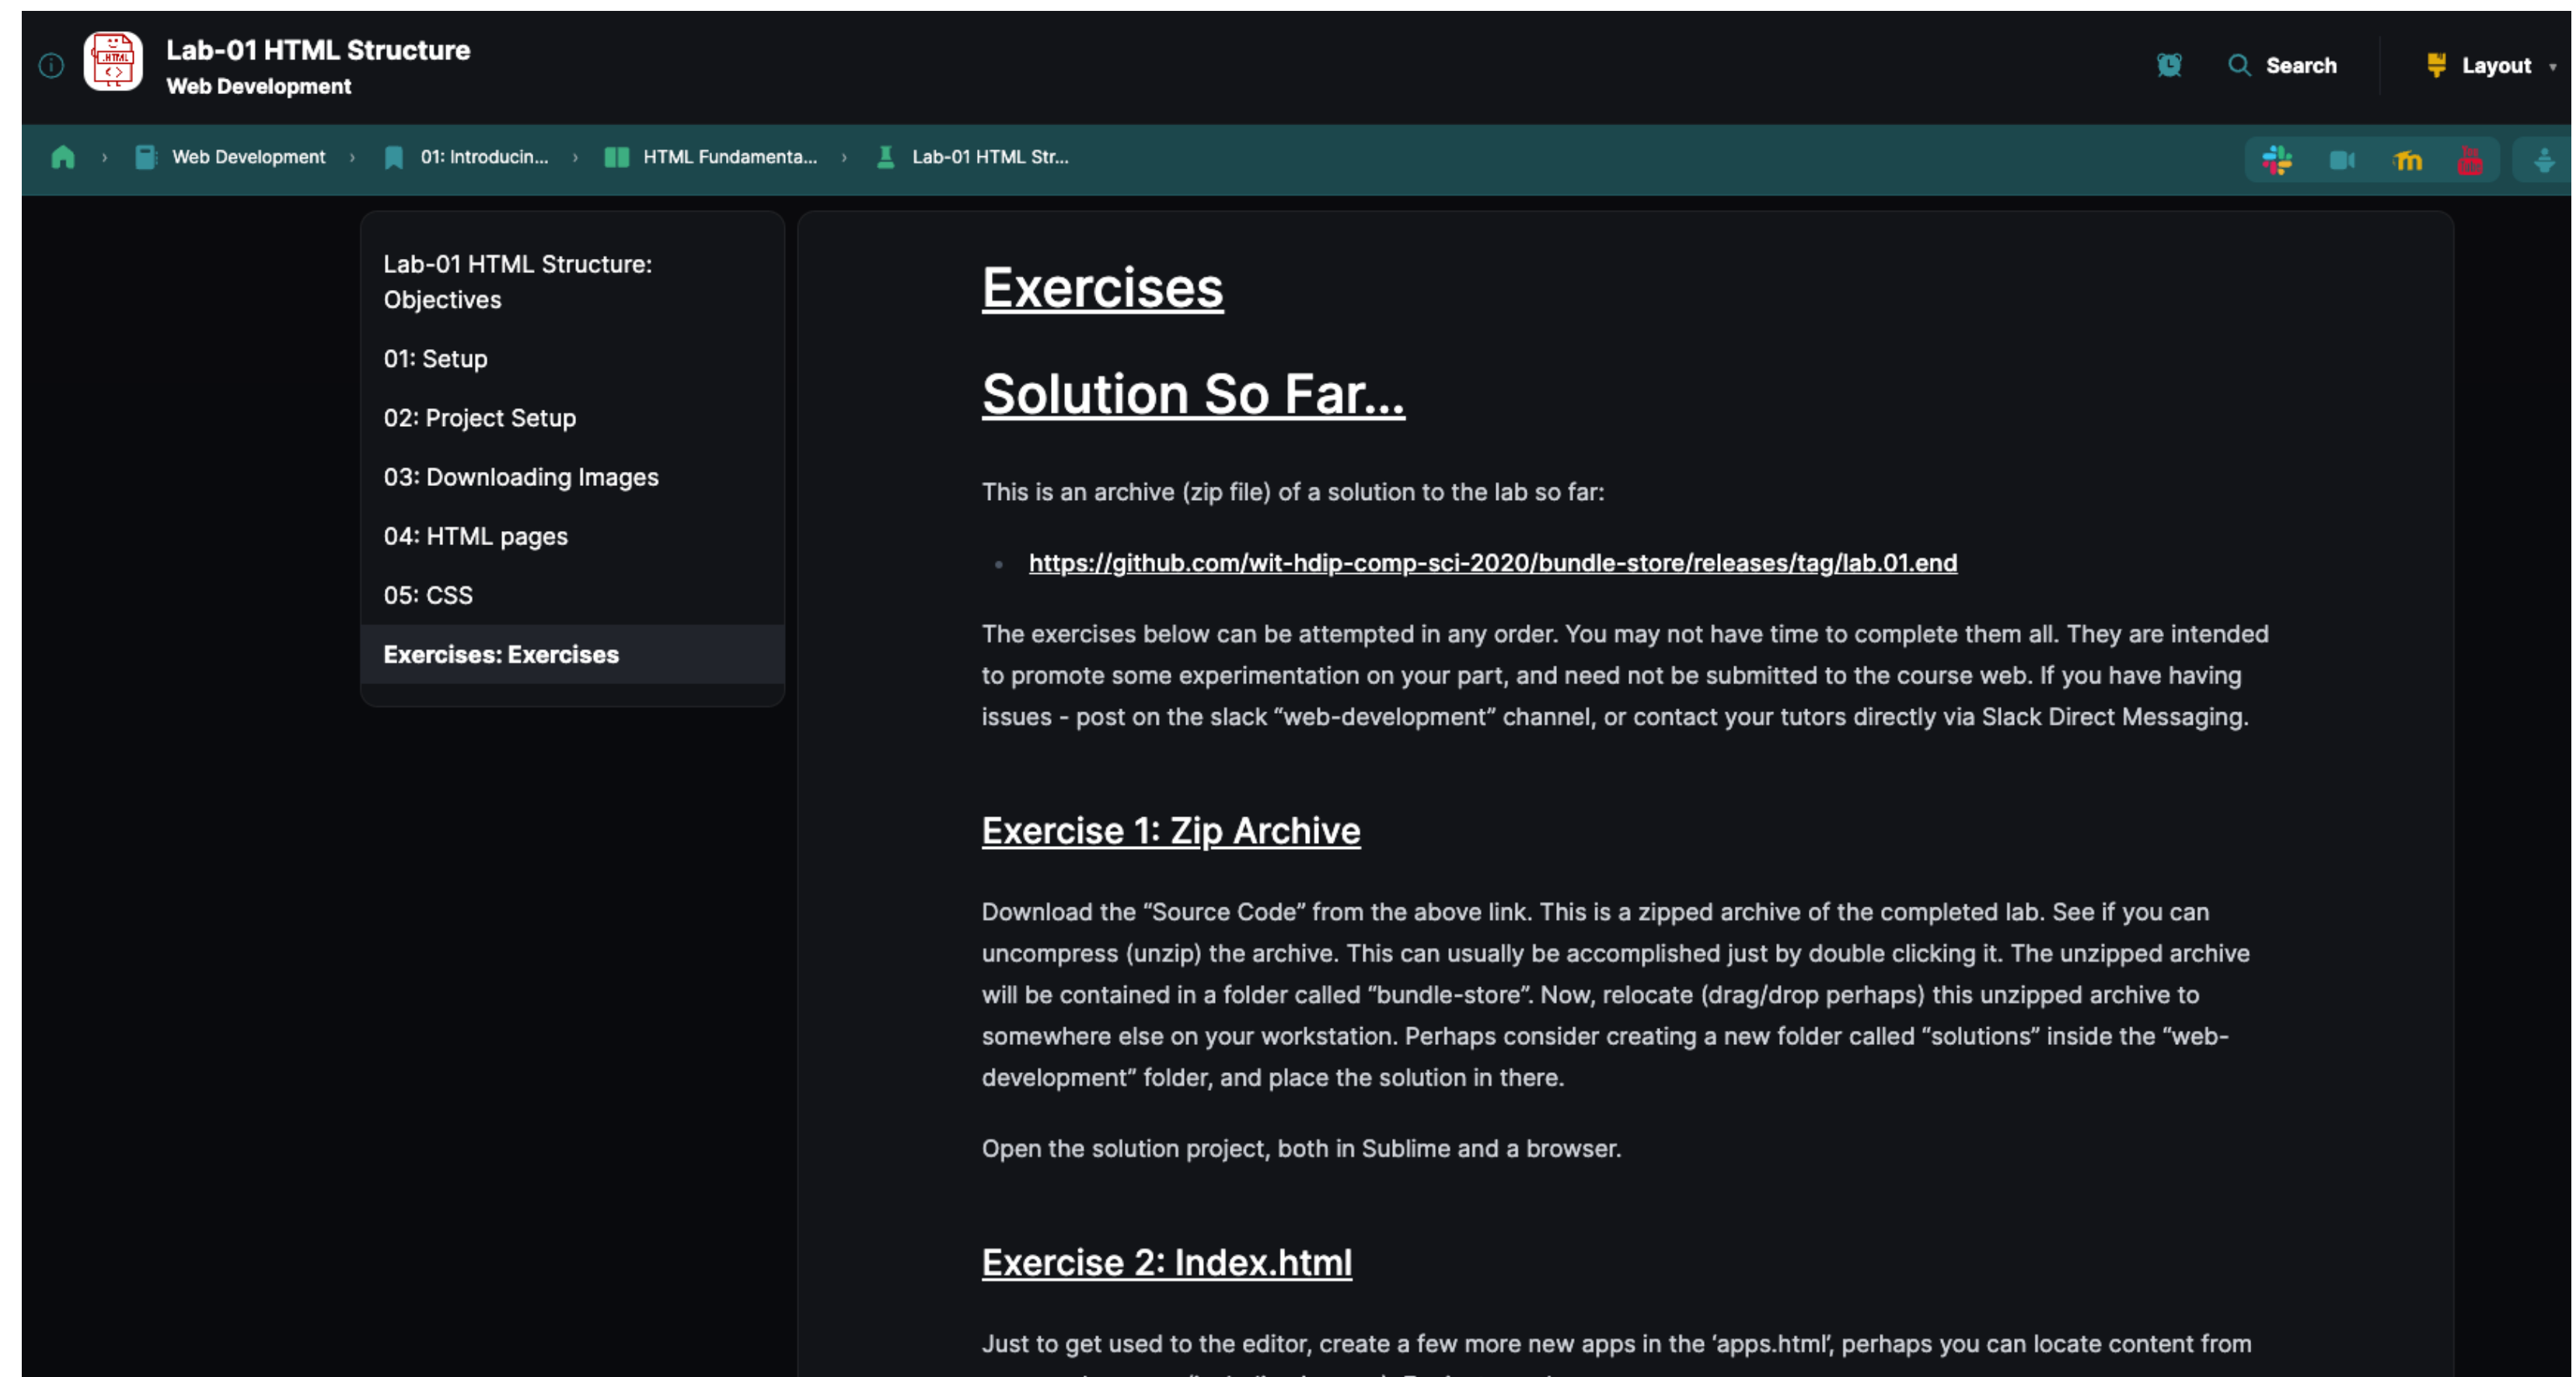

Step By Step

Learn by Doing!

(Don't be tempted to skip)

Lab Exercises

- Independent Learning
- Challenge yourself
- It is OK to fail, you need to fail to learn
- Exercises are typically in order of difficulty – more difficult as you move down the page

I Need Help!

- As a group, you should create a channel to communicate with each other on labs
- If all else fails – web dev slack channel - [#web-development-1](#)

Lab Exercises

Lab Exercises

- Labs are not submitted or graded
- However, they are VITALLY IMPORTANT to your learning experience

Recap

- Thursday 12:15 – Lectures with Lab Intro at End (**Recorded**)
- Tuesday 19:00 – Zoom Session to help with labs, assignments, whatever (time may change)
- Available via Slack to assist throughout the week, we may schedule these times after the dust settles

Semester 1 Assessment Schedule
